

Valves, Actuators & Controls

Worcester Controls

Ball valves, actuation solutions, linear control valves, custom engineered valves, hygienic valves

Butterfly valves, full range of pneumatic, electric and hydraulic

Silent check valves, horizontal and vertical installations in liquid, gas and steam

Control valves, regulators, controllers, pressure/vacuum relief vents, flame and detonation arrestors, hygienic valves

Control valves, sensors, Aseptic valves, regulating valves, hygienic valves, Tank safety systems

Thermoplastic fluid flow solutions, valves, actuators, piping systems, corrosion thermoplastic valves and actuators

Diaphragm valves for media control and regulation, hygienic valves

Needle valves, plug valves, bonnet valves: integral, screwed and union. Manifold valves, metering valves, ball and solenoid valves

Pressure regulators, high pressure valves, control valves, gas delivery systems and assemblies

Tank safety equipment: blanketing, pressure/vacuum conservation vents, emergency vents, flame and detonation arrestors

Instrumentation: Flow, Level, Pressure, Analytical, Temperature

Gauges for vacuum, absolute & differential pressures

Turbine flow meters

Flow: Coriolis, electromagnetic
Level: Guided wave radar pressure & temperature transmitters

Custom Control Sensors

Pressure, vacuum and differential pressure switches

Thermal mass flow meters, flow switches, mass flow controllers, mechanical & electronic level switches and transmitters

Liquid level gauges: mechanical, direct reading tubular, armored, reflex and transparent glass

Magnetic level indicators, mechanical & electronic switches, electronic and mechanical level transmitters

Pressure gauges: vacuum, absolute and differential Temperature measurement and transmitters

Alpha moisture systems dew point analyzers and transmitters

Comprehensive selection of instrumentation accessories

Temperature measurement and transmitters

Comprehensive selection of instrumentation accessories

Comprehensive selection of instrumentation accessories

Air Treatment Solutions

Dehumidification systems, compression air systems, service for air treatment solutions

Compression air systems

Serving the Greater Florida Area
904.721.0822

Filtration

Advanced filtration,
separation and
purification solutions

Comprehensive line of
regenerable water
filtration systems

Mechanical

Single and two ferrule
fittings, hygienic
fittings, tubing & hose
assemblies, quick
couplings, PTFE/PFA,
valves

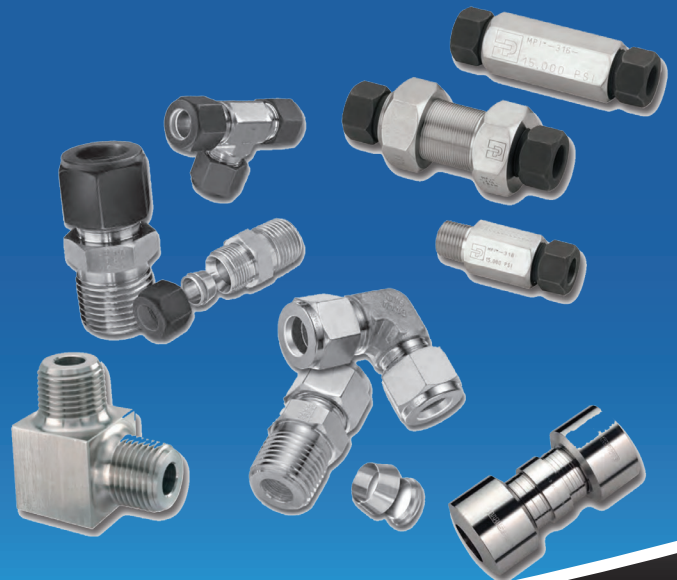

Custom hose assemblies
and tube support
products

Your Trusted Source for the Compressed Air and Fluid Processing Industry

Accutech Instrumentation, a leading distributor of process control equipment, offers best-in-class compressed air and fluid processing expertise, products and service. Serving the Greater Florida area-with our corporate office in Jacksonville- Accutech Instrumentation's industrial process experts are conveniently located to serve the Florida industrial market. We offer a large inventory of process control instruments to meet the demanding processing needs of the region's space/aerospace, power generation, water/wastewater, food, beverage, chemical/-phosphate and pulp and paper industries.
